3 INVESTMENT OBJECTIVES, POLICIES, PERMISSIBLE INVESTMENT INSTRUMENTS AND INVESTMENT RESTRICTIONS

3.1 Investment Objective

The Investment Objective of the Fund is to aim to achieve a high level of income through investment in a diversified portfolio of Transferable Securities consisting principally of debt instruments whilst also seeking to achieve capital appreciation.

At any time, the Investment Objective of the Fund will only be changed with the approval of the Shareholders of the Fund.

There is no guarantee that the investment objective of the Fund will be achieved and investment results may vary substantially over time.

3.2 Investment Policies

The Sub-Investment Manager will seek to attain the Investment Objective through a careful selection of debt instruments which are principally of a sub investment grade credit rating and/or unrated debt instruments. The Fund's portfolio may, at any time, also have an exposure to debt instruments which have an investment grade credit rating.

Sub-investment grade debt instruments are highly speculative debt instruments offering minimum protection or practically no protection against losses from credit defaults by the respective issuers implying that such securities carry significant risk of default, i.e. failure to receive payment of interest and/or principal. Upon default significant losses may be incurred. Investment grade debt instruments are considered as debt instruments which afford high or adequate protection against losses for credit defaults by the respective issuers implying that such securities carry a lower probability of default.

In this respect, the Fund's sub-investment grade debt instruments will typically fall under the "BBB-" rating for debt instruments or equivalent as rated by established credit rating agencies.

Unrated debt instruments are securities that are not rated for credit worthiness and repayment risk by independent rating agencies. Such debt instruments carry varying degrees of risk and may not be of a credit quality comparable to Sub-Investment grade securities or Investment grade securities.

The Fund may hold (not purchase) up to 5% of its net Asset Value in equity Transferable Securities which were acquired as a result of debt restructuring.

Should market and economic conditions warrant so, the Sub-Investment Manager may decide to switch the Fund's portfolio to one with a principal exposure to investment grade debt instruments. In such a scenario, the Fund may not achieve its Investment Objective when this temporary strategy is used.

The Sub-Investment Manager may enter into financial derivatives, including but not limited to futures, for the purposes of efficient portfolio management ("EPM") and/or hedging purposes.

Subject to the investment restrictions specified in Section 4 under the heading 'General Investment Restrictions' of the Prospectus, the Fund may invest up to 100% of its Net Asset Value in debt instruments which have a sub-investment grade credit rating and/or unrated debt securities. At all times, the Fund will seek to maintain a minimum exposure of at least 51% of Net Asset Value to sub-investment grade debt instruments and/or

unrated debt securities unless the Sub-Investment Manager considers that market conditions warrant a lower holding in such debt instruments.

The Fund may invest, in the aggregate, not more than 20% of its Net Asset Value in debt instruments which have an investment grade credit rating unless the Sub-Investment Manager considers that market conditions warrant a higher holding in such debt instruments.

The Fund may invest up to 10% of its Net Asset Value in debt instruments which are not traded in or dealt on a market, which:

- (a) The Custodian and the Manager have agreed between themselves as being appropriate for the Fund;
- (b) Is regulated, operates regularly, is recognised and is open to the public; and
- (c) Has adequate liquidity and adequate arrangements in respect of the transmission of income and capital.

The Fund may not invest more than 10 per cent of its net asset value in collective investment schemes. social objective.

The Directors may, at their sole discretion, alter the Investment Policies as set out above provided that any material change therein shall be notified to the Shareholders of the Fund.

3.3 General Policies

The Fund may also, from time to time, invest its assets Money Market Instruments, money market or cash funds, and cash deposits, if, in the opinion of the Manager, the prevailing market and economic conditions warrant the adoption of such a policy but within the limitations specified in Section 4 under the heading 'General Investment Restrictions' of the Prospectus.

3.4 Permissible Investment Instruments & Investment Restrictions

For more detailed information on the permissible investment instruments to be made by the Fund, please refer to Section 3 entitled '*Permissible Investment Instruments*' of the Prospectus.

The Fund is also subject to certain investment restrictions laid out in section 4 entitled '*General Investment Restrictions*' of the Prospectus.

4 RISK FACTORS

INVESTMENT IN THE FUND IS SUBJECT TO RISK FACTORS. THE SPECIFIC RISK FACTORS HIGHLIGHTED BELOW SHOULD BE READ IN CONJUNCTION WITH THE RISK FACTORS SET OUT IN THE PROSPECTUS UNDER THE HEADINGS 'RISK FACTORS' AND 'FINANCIAL DERIVATIVE INSTRUMENTS AND THEIR RISKS' UNDER SECTIONS 5 AND 6, RESPECTIVELY.

Interest Rate Risk

Interest rate risk refers to fluctuations in the value of fixed income securities, including corporate and other debt instruments, resulting from changes in interest rates. In general, if interest rates rise, fixed income security prices fall. In addition, interest rate risk tends to increase as the duration of a fixed income security increases.

Credit Risk

Credit risk refers to the possibility that the issuer of a security will be unable, or is perceived to be unable, to make interest payments and/or repay the principal on its debt.

Liquidity Risk

Liquidity risk is the risk that the Fund will not be able to pay redemption proceeds within the normal time periods described in the Prospectus and this Offering Supplement because of unusual market conditions, an unusually high volume of redemption requests or other reasons. In such circumstances, the Manager may limit the total number of shares to be redeemed on any Dealing Day (see section entitled *Deferral of Redemption of Investor Shares* under section 7.3 of the Prospectus) and may also temporarily suspend determination of the Fund's Net Asset Value together with the sale and repurchase of shares (see section entitled *Temporary Suspension of Redemption of Investor Shares* under section 7.3. and section 7.7 of the Prospectus).

Investments in debt securities and sub investment grade securities

The Fund will principally invest in fixed income/debt securities which expose the Fund to the risk that an issuer may default on the payment of interest, principal or both. Credit risk, a fundamental risk relating to all debt securities as, is the chance that an issuer will fail to make principal and interest payments when due. Even in the absence of the issuer's default, if the mark-to-market value is lower than the cost of the investment, the Fund may suffer immediate diminution in the net asset value, even if the Fund holds that investment to maturity and yields a profit.

The Fund invests a substantial part of its assets in sub investment grade securities.

Sub investment grade securities offer a very low level of protection towards the honouring of principal and interest payments by issuers. The lower the rating of a sub investment grade security, the lower the protection (if at all) afforded against credit defaults by the respective issuers.

Investment in sub investment grade securities may subject the Funds to higher credit risk and higher market risk than that normally associated with investment in investment grade securities. Under adverse economic and/or market conditions or specific issuer risk, there is also a risk that highly leveraged issuers may be unable to service their debt obligations or to repay their obligations upon maturity. In addition, such securities may be more illiquid (i.e., harder to value and sell) than higher-rated securities. Accordingly their buying and selling may be time consuming and may need to be

effected at unfavourable prices. In addition, such illiquidity may require that such securities' valuation be dependent upon a valuer's opinion.

Nature of the Fund

Due to the risks associated with investment in sub investment grade securities, investment in this Fund is only suitable to investors who are willing to accept such risks. As with all the other Funds, prospective investors should consider carefully the information contained in this section as well as all other information contained in the Prospectus and this Offering Supplement before making an investment decision concerning the Fund.

Investments in the securities of smaller companies

The Fund may invest in the securities of smaller companies. Investments in the securities of smaller companies can involve greater risk than is customarily associated with investments in larger, more established companies. In particular, smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on one or two key individuals. This may result in investments in such companies to be more volatile than that in larger companies.

Investments in the securities of unquoted companies

The Fund may invest in securities of unquoted companies. Investment in unquoted companies can be subject to risks not normally associated with quoted securities. These risks mainly relate to the illiquidity of the market.

Investments in Collective Investment Schemes

The Fund invests in Collective Investment Schemes, which implies that its investment prospects and performance is closely linked to the prospects and performance of the underlying Collective Investment Schemes in which they invest. Schemes' prospectuses, which are available upon request from the Manager.

Investment in financial derivative instruments

For the purposes of the efficient portfolio management, the Fund may invest in financial futures and options, forward currency transactions, interest rate and currency swaps and related derivatives. The term "efficient portfolio management" refers to transactions that are entered into with the aim of reducing risk, reducing cost or generating additional capital for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund. Please refer to the risks associated with financial derivative instruments described in section 6.2 under the heading "*Financial Derivative Instruments and their Risks*" of the Prospectus.

Direct and indirect operational costs/fees arising from efficient portfolio management techniques may be deducted from the revenue delivered to the Fund. These costs and fees shall not include hidden revenue, and will be payable to Bank of Valletta plc, the Custodian of the Fund.

Equity Investments

The Fund may invest in equity Transferable Securities which were acquired as a result of debt restructuring. Investment in equities is subject to certain risks inherent in the market, which are attributable to general market conditions. Furthermore, equity investment is also subject to firm specific risk which reflects the risk peculiar to an individual firm.

Investors should therefore be aware that the Fund is subject to both market and firm specific risk.

Different class denominations

The Fund is denominated in EUR. In this regard, shareholders investing in the respective USD share class of the Fund should be aware that currency fluctuations between the base currency of the Fund and the share class may adversely affect the value of shareholders' investment. This risk may also be present where a currency hedging strategy has been implemented.

Hedging strategy at share class level

The Company aims to minimise the currency risk arising from the exchange rate movements between the base currency of the Fund and the USD share class by adopting a hedging strategy at the share class level.

Notwithstanding the successful execution of the hedging strategy, there may be instances when the currency exposure will not be fully hedged and as a result there may be a mismatch between the Net Asset Value per Investor Share of the base currency of the Fund and the Net Asset Value per Investor Share of the USD share class.

Irrespective of whether the base currency of the Fund is declining or increasing in value relative to USD share class, the hedging strategy may either substantially protect shareholders in the USD Share Class against a decrease in the value of the base currency, but it may also preclude shareholders of the USD Share Class from benefiting from an increase in the value of the Fund's base currency.

Although the Company does not intend to over-hedge the said currency positions (that is, a hedged position in which the offsetting position is for a greater amount than the underlying position held), over-hedging may arise due to factors outside the control of the Company or the Manager. In this respect, any over-hedged positions would need to be rectified, with any costs incurred being allocated for net asset value calculations to the USD share class. Please refer to Section 6 in the Prospectus under the heading '*Financial Derivative Instruments and their Risks*' in relation to the use of financial derivative instruments.

Given that there is no segregation of assets and liabilities between Share Classes, there is a risk that, under certain circumstances, the outcome of the currency hedging transactions in relation to one share class could affect the Net Asset Value of the other share class of the Fund.

Currency Risk

Shareholders of the USD Class should take into account the potential risk of loss arising from fluctuations in value between the currency of investment (being the EUR) and the currency of their Class of Investor Shares.

OTC Markets Risk

Where the Fund acquires securities on OTC markets, there is no guarantee that the Fund will be able to realise the fair value of such securities due to their tendency to have limited liquidity and comparatively high price volatility. Where the Fund utilises OTC FDI, such as forward contracts, swap agreements and contracts for difference, may expose the Fund to the risk that the legal documentation of the contract may not accurately reflect the intention of the parties.

THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE ENUMERATION OR EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE FUND. PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE OFFERING DOCUMENT AND OFFERING SUPPLEMENT AND CONSULT THEIR OWN COUNSEL AND ADVISORS BEFORE DECIDING TO INVEST IN THE FUND

5 BUYING, SELLING AND SWITCHING

5.1 Dealing Prices

The dealing price per share for buying Investor Shares (the issue price per Investor Share) will be equivalent to the Net Asset Value per Investor Share for each Class of Investor Shares in the Fund.

An initial charge, as set out in Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*', is applicable for buying Investor Shares. This charge will be automatically deducted from the amount invested.

The dealing price per Investor Share for selling Investor Shares (the redemption price per Investor Share) will be equal to the Net Asset Value per Investor Share for each class of Investor Shares in the Fund. In the event that exit fees apply, Shareholders shall be required to pay the applicable fee. As at the date of this Offering Supplement, no such exit fee is due.

The dealing prices applicable for switching Investor Shares between funds of the Company are the applicable issue price per Investor Shares and redemption price per Investor Share of the applicable funds to be switched.

The Net Asset Value of the Fund will be published daily or at such other frequency as the Directors may determine from time to time in a newspaper. The Net Asset Value per Investor Share for each class of shares in the Fund will also appear on the Manager's website on www.bovassetmanagement.com

Subscription and Application Procedure

Applications for Investor Shares from new investors must be made on the Subscription Application and applications from existing Shareholders may be made either on a Subscription Application or in writing (including facsimile communication or by any other electronic means acceptable to the Manager and the Administrator subject that such requests are followed by the original signed instructions) through licensed financial intermediaries listed under Appendix IV of the Prospectus or directly to the Manager at the office of the Administrator. The application to purchase Investor Shares in writing if accepted by the Manager and the Administrator, will constitute a legally binding contract. The Manager and the Administrator reserve the right to reject any application in whole or in part.

A copy of the Subscription Application should be retained by the applicant for own personal reference and records.

Subscription Applications duly completed shall be dealt with in accordance with the procedure set out under Section 7 of the Prospectus entitled '*Buying, Selling and Switching*'. Settlement should be made in accordance with the Prospectus and the instructions in the Subscription Application.

Applications for the purchase of shares received by the Administrator before 16:00 hours (Malta time) on a Dealing Day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours (Malta time) on the following Dealing Day. Applications received by the Administrator after 16:00 hours (Malta time) on a Dealing Day as well as applications received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be carried over to the next following Dealing Day and dealt at the prices calculated as at 09:00 hours (Malta time) of the next following Dealing Day.

5.2 Redemption Procedure

Shareholders may, at any time, irrevocably request, via signed instructions to the Administrator, the redemption of their Investor Shares in the Fund.

Redemption instructions may be made on a Redemption Form or in writing in a form acceptable to the Manager and the Administrator (which shall no longer include facsimile instructions) through licensed financial intermediaries or directly to the Manager.

Partial sales of Shareholdings are acceptable provided the resultant value of the Shareholding does not fall below the relevant minimum amount established for each Fund as specified in Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*'). The Administrator may, at its complete discretion, redeem a shareholding with a value of less than such minimum holding. This right will normally be waived in the case of active monthly investment plans.

Shareholders may not revoke or withdraw redemption instructions delivered to the Manager and the Administrator, even if the Directors elect to exercise their power of deferral.

Depending on the amount/s redeemed, this may result in an overall erosion of the capital invested.

Redemption instructions received at the Administrator up to 16:00 hours (Malta time) on a Dealing day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours (Malta time) on the following Dealing Day. Redemption instructions received by the Administrator after 16:00 hours (Malta time) on a Dealing Day as well as redemption instructions received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be carried over to the next following Dealing Day and dealt at the prices calculated as at 09:00 hours (Malta time) on the next following Dealing Day.

Settlement of redemption proceeds will be made in accordance with the procedures set out in Section 7.3 of the Prospectus under the sub-heading "*Payment of Redemption Proceeds*".

5.3 Liquidity Management

To ensure compatibility with the investment strategy of the Fund, the Manager employs a redemption policy, liquidity management tools and other conditions to redemptions, consisting of:

- (i) an extension of the redemption notice period, as set out below; and
- (ii) the redemption gate, as set out in the Prospectus and below.

The Fund requires Shareholders to provide not less than 1 Business Day prior written notice of a proposed redemption request (the "**Redemption Notice Period**"). The Board of Directors may, on the advice of the Investment Manager, extend the Redemption Notice Period for one or more Redemption Days, where doing so is considered necessary to ensure the orderly functioning of the Fund and the fair treatment of Shareholders.

Any extension of the Redemption Notice Period shall cover the period between receipt of the redemption request by (or on behalf of) the Fund and its execution, and shall not include the time required for settlement of the redemption proceeds.

This Extension of Notice Period may be activated in normal and in stressed/exceptional market conditions and shall not alter the Fund's redemption frequency. Redemptions will continue to occur on the scheduled Redemption Days. Only the amount of prior notice required may be adjusted.

The Extension of Notice Period may extend the Redemption Notice Period by up to 5 Business Days, or, where the Board, on the advice of the Investment Manager considers a different calibration is necessary and proportionate in the circumstances, to such other period (or fixed date preceding the relevant Redemption Day) as the Board, on the advice of the Investment Manager may reasonably determine.

The Board shall give notice (as soon as reasonably practicable) of the activation of an Extension of Notice Period to all investors, specifying the specific number of days or a fixed date preceding the Redemption Day.

Redemption Gate

For the purposes of this section, a "Redemption Gate" means a temporary and partial restriction of the right of Shareholders to redeem their Shares, whereby redemption requests are executed only up to a specified proportion, and the remaining portion is deferred in accordance with this Offering Supplement.

The Directors may, on the advice of the Investment Manager, if justified having regard to the interests of the Fund and its Shareholders and in accordance with applicable law, determine to activate a Redemption Gate.

The Investment Manager may consider activating a Redemption Gate where the total net redemption requests received for a given Redemption Day exceed ten per cent (10%) of the Net Asset Value of the Fund calculated on the relevant Valuation Day (the "**Activation Threshold**").

For the purposes of this section:

1. "net redemption requests" means the aggregate value of redemption requests received for the relevant Redemption Day less the aggregate value of subscription requests received for the same date, where applicable;
2. the relevant percentage shall be calculated by reference to the most recently available official Net Asset Value prior to the relevant Redemption Day.

Exceeding the Activation Threshold shall not automatically result in the activation of a Redemption Gate. The Investment Manager shall determine, having regard to the

liquidity profile of the Fund's assets, prevailing market conditions, expected cash flow and the best interests of the Shareholders, whether the activation of a Redemption Gate is necessary and proportionate as an LMT.

Upon activation of a Redemption Gate:

1. redemption requests shall be executed on a pro rata basis for all Shareholders submitting valid redemption requests for the relevant Redemption Day;
2. the aggregate value of redemption requests executed on that Redemption Day shall not exceed the redemption gate limit determined by the Directors, on the advice of the Investment Manager, for that Redemption Day (the "**Redemption Gate Limit**"), having regard to the liquidity profile of the Fund's assets, prevailing market conditions, available liquidity and expected cash flows, and the need to ensure the fair treatment of Shareholders;
3. all redemption requests shall be reduced proportionally so that each redeeming Shareholder has the same percentage of its redemption request executed.

The portion of any redemption request not executed as a result of the activation of the Redemption Gate (the "**Deferred Portion**") shall automatically be carried forward to the next Redemption Day and shall be treated as a redemption request received in respect of the next Redemption Day.

The Deferred Portion shall be processed in priority to redemption requests received for that subsequent Redemption Day but shall remain subject to the possible application of a Redemption Gate on the subsequent Redemption Day if the Activation Threshold is again exceeded.

No new redemption notice shall be required in respect of the Deferred Portion.

The Redemption Gate shall be temporary in nature and shall be assessed and reviewed periodically by the Investment Manager to ensure that it remains necessary and proportionate in the best interests of Shareholders.

The Redemption Gate shall cease to apply where the Investment Manager determines that the circumstances justifying its activation no longer exist and that the Fund is able to meet redemption requests in an orderly manner without prejudicing the interests of remaining Shareholders.

The Redemption Gate shall be applied uniformly to all affected Shareholders and Share Classes for the relevant Redemption Day.

Regulatory notification / reporting

Where applicable, the activation and/or deactivation of a Fund Specific LMT may give rise to regulatory notification or reporting requirements and the Company and/or the Investment Manager will comply with any such requirements as may apply from time to time.

Other LMTs

The Fund may also make use of other LMTs as set out in the Prospectus under the heading "Liquidity Management Tools".

5.4 Switching of Investor Shares

Shareholders may switch Investor Shares in one Fund ("**the Original Shares**") into Investor Shares in another Fund (the "**the New Shares**") and are entitled to do so on any Dealing Day provided that the resultant value of the Shareholding for each Fund is

not below the minimum established amounts as specified Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*').

Shareholders may also switch Investor Shares from one Investor Share class ("**the Original Shares**") to another Investor Share class ("**the New Shares**") within the Fund (subject to the minimum holding and redemption requirements).

Any switching request should specify the number of Investor Shares to be switched.

On a switch between the Original Shares and the New Shares, where the initial fee applied on the New Shares is higher than that applied on the Original Shares, the Administrator will usually charge the New Shares the difference in initial fees between the Original Shares and the New Shares. Notwithstanding, the Manager retains the right to apply up to the maximum initial fee on the New Shares.

Switching of the Original Shares comprised in a valid switch request shall be effected by the redemption of such Original Shares (save that the redemption monies shall not be released to the Shareholder) and the issue of New Shares, with such redemption and issue taking place on the same Dealing Day/s at the dealing prices as described above.

Irrevocable switching instructions received at the Administrator in respect of the Funds before 16:00 hours on any Dealing Day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours on the following Dealing Day. Irrevocable switching instructions received by the Manager at the Administrator's Office after 16:00 hours on any Dealing Day as well as irrevocable switching instructions received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours on the following Dealing Day.

6 DIVIDEND DISTRIBUTIONS

This section only applies to Distribution classes of Investor Shares of the Fund.

6.1 Dividend Policy

The Directors shall calculate, at each ex div date, the net income available for distribution, adjusted to reflect the re-allocation, if any, of part of the expenses against capital.

In the absence of unforeseen circumstances, subject to the availability of distributable profits and in the absence of exceptional market conditions, the Directors expect to distribute to shareholders on a quarterly basis, part or all of the net income available for distribution by the Fund. Any undistributed income will be reflected in the Net Asset Value per share of the Fund.

Full or part of the management fee is re-allocated from the income account to the capital account, depending on the investment objective of the Fund. This re-allocation may increase the income available for distribution to Shareholders in such Funds but may constrain or erode capital growth.

6.2 Dividend payment dates

Subject to Section 6.1 above, the Directors expect to effect dividend payments as follows:

(i) Annual Dividends

In the case of the annual dividends for the Fund, payment will be effected by not later than the expiry of two months from the end of the Company's financial year ending 30 April in each year.

(ii) Interim Dividends

For the quarterly distribution period from 1 May to 31 July, 1 August to 31 October and 1 November to 31 January in each year, payment will be effected by not later than the expiry of two months of each quarter.

Should any of the above mentioned distribution dates fall on a day which is not a Business Day, the income derived in the particular period ending on the preceding Business Day will be taken into account when calculating the respective dividend.

6.3 Direct credits and ex div dates

Dividend payments shall be effected by the Administrator by means of a direct credit into a bank account held in the name of the registered holder as duly instructed by the said holder in the payment instructions. In the case of a share held jointly by two or more persons, the Directors shall cause the dividend payment to be made into a bank account held in the name of any one or more of the joint holders, as duly instructed by the said holder/s, and dispatch of the dividend to the account of such holder/s shall be deemed as sufficient delivery to all and shall discharge the Company of its obligation towards the other joint holder/s. The Company shall not be responsible for any delay in transmission.

Any changes to the bank account details are to be notified to the Administrator by not later than the ex div dates mentioned below. If such changes are not notified to the Administrator by these dates or if it transpires to the Administrator that the bank account is not held in the name of the registered holder/s, the Administrator will reinvest such proceeds. Reinvestment will be made in accordance with the provisions specified in Section 6.5 below.

Only Shareholders listed on the Register of Shareholders on the 31 July, 31 October, 31 January and 30 April (ex div dates) in each year shall be entitled to receive dividend payments.

All payments are subject in all cases to any pledge (duly constituted) of the Investor Shares and to any applicable fiscal or other laws and regulations. In particular, but without limitation, all payments by the issuer in respect of the Investor Shares shall be made net of any amount which the Company is compelled by law to deduct or withhold for or on account of any present or future taxes, duties, assessments or other government charges of whatsoever nature imposed or levied by or on behalf of the Government of Malta or authority thereof or therein having power to tax.

6.4 Dividend Warrants

A dividend warrant will be issued and will show all the payments effected during the year together with any final dividend which may be paid. The dividend warrant will bear a date falling after the end of the respective financial year to which the warrant relates.

6.5 Reinvestment option

Investors may elect to reinvest the dividend payments back into the Fund subject that written notification of reinvestment instructions is, (unless prior advised), received by the Administrator by not later than the ex div dates mentioned in Section 6.3 above.

6.6 Dealing Days - Reinvestment Option

Investors may elect to reinvest the dividend payments back into the Fund subject that written notification of reinvestment instructions is, (unless prior advised), received at the Manager's Office by not later than the ex div dates mentioned in Section 6.3 above.

6.7 Dealing Days - Reinvestment Option

Reinvestment will normally be effected by not later than the second Dealing Day following the dividend payment date at the price prevailing on the respective Dealing Day.

6.8 Allocation of Income

In terms of the Memorandum and Articles of Association of the Company the amount available for allocation in respect of the Fund shall be a sum equal to the aggregate of the income received or receivable by the Company in respect of the Fund (whether in the form of dividends, interest or otherwise) during the Accounting Period, calculated in accordance with the following: -

- (i) addition or deduction of a sum by way of adjustment to allow for the effect of sales or purchases of Investments, cum or ex-dividend;
- (ii) addition of a sum representing any interest or dividend or other income accrued but not received by the Company at the end of the Accounting Period and deduction of a sum representing (to the extent that an adjustment by way of addition has been made in respect of any previous Accounting Period) interest or dividends or other income accrued at the end of the previous Accounting Period;
- (iii) addition of the amount (if any) available for allocation in respect of the last preceding Accounting Period but not allocated in respect thereof;
- (iv) addition of a sum representing the estimated or actual repayment of tax resulting from any claims in respect of income tax relief or double taxation relief or other relief available or otherwise;
- (v) deduction of the amount of any tax or other estimated or actual liability properly payable out of the income of the Company;

- (vi) deduction of sums representing participation in income paid upon the repurchase of shares during the Accounting Period;
- (vii) deduction of such sum as the Directors may think appropriate in respect of any of the expenses provided in the Articles PROVIDED ALWAYS that the Company shall not be responsible for any error in any estimates of income tax repayments or double taxation or other relief expected by way of taxation or of income receivable, and if the same shall not prove in all respects correct, the Directors shall ensure that any consequent deficiency or surplus shall be adjusted in the Accounting Period in which a further or final statement is made of such estimated income receivable is determined, and no adjustment shall be made to any dividend previously declared; and
- (viii) deduction of any amounts declared as a distribution but not yet distributed.

6.9 Equalisation

The Company shall operate an equalisation account to ensure that the amount distributed in respect of each Investor Share will be the same for all Investor Shares notwithstanding different dates of issue of those Investor Shares. Accordingly, a sum equal to that part of the issue/redemption price of an Investor Share, which reflects income (if any) accrued up to the date of issue/redemption, will be deemed to be an equalisation payment/charge and credited (in the case of Investor Share Issues)/debited (in the case of redemptions) by the Directors to the equalisation account. Part of the first dividend to holders of Investor Shares in respect of which equalisation payments are made, will be paid out of the equalisation account.

In theory, the excess of equalisation credits over debits should be distributed, however, in the absence of significant fluctuations between redemption and issue or creations of Investor Shares, it is not expected to consider equalisation when determining distributions to Shareholders nor to pay to Shareholders any excess of equalisation credits over debits. Any fluctuations between redemptions and creations of Investor Shares that could have an effect of [1] per cent or more on the Net Asset Value per Investor Share shall be considered significant.

No equalisation in respect of the Fund's accumulated unrealised gains or losses will be effected.
