Important Information

BEFORE PURCHASING ANY INVESTOR SHARES IN THE FUND DESCRIBED IN THIS OFFERING SUPPLEMENT, YOU SHOULD MAKE SURE THAT YOU FULLY UNDERSTAND THE NATURE OF THIS INVESTMENT, THE RISKS ASSOCIATED WITH IT AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE NOT CERTAIN ABOUT THE CONTENTS OF THIS OFFERING SUPPLEMENT, YOU SHOULD SEEK THE ADVICE OF A SUITABLY QUALIFIED ADVISOR. YOU SHOULD ALSO REFER TO THE LATEST VERSION OF THE PROSPECTUS WHICH ACCOMPANIES THIS OFFERING SUPPLEMENT AND WHICH DESCRIBES THE COMPANY AND PROVIDES GENERAL INFORMATION ABOUT OFFERS OF INVESTOR SHARES IN THE COMPANY. YOU SHOULD NOT TAKE ANY ACTION IN CONNECTION WITH THIS OFFER OF INVESTOR SHARES UNLESS YOU HAVE RECEIVED A COPY OF THE PROSPECTUS.

Suitability of Investment

Before investing in the Fund, you should inform yourself how you could be affected by: (a) any possible tax consequences; (b) any legal and regulatory requirements; (c) any applicable foreign exchange restrictions or exchange control requirements; (d) any governmental or other consents or formalities that you might require or otherwise encounter under the laws of your country of citizenship, residence or domicile and which might affect your acquisition, holding or disposal of Investor Shares or receipt by you of income from such Investor Shares.

The value of the Investor Shares will fluctuate, and there is no guarantee that you will make a profit, or that you will not make a loss, on your investment. Refer also to the Section of the Prospectus entitled "Risk Factors". The Risk Factors outlined in the Prospectus are sufficiently exhaustive to also cater for any specific risks which may apply for an investment in the Fund.

An investment in the Investor Shares by you is best undertaken after you are satisfied, possibly after obtaining advice from a suitably qualified advisor, that you have properly assessed the merits and risks associated with the investment and that your financial resources are adequate to enable you to bear any potential losses that may arise. The contents of this Offering Supplement and of the Prospectus are not intended to contain, and should not be regarded as containing, advice relating to taxation, legal advice, investment advice or any other matter.

Restrictions on Distribution outside Malta

The offer of Investor Shares pursuant to this Offering Supplement is deemed to be an offer of securities to the public in terms of the Companies Act, however, the distribution of this Offering Supplement, the Prospectus, the KIID and the offering of Investor Shares may be restricted in other jurisdictions. This Offering Supplement does not constitute, and may not be used for the purposes of, an offer or solicitation to anyone in any jurisdiction in which such offer or solicitation is not authorised, or to any person to whom it is unlawful to make such offer or solicitation. Persons to whose attention this Offering Supplement may come are required to inform themselves about, and to observe, such restrictions

3 INVESTMENT OBJECTIVES, POLICIES, PERMISSIBLE INVESTMENT INSTRUMENTS AND INVESTMENT RESTRICTIONS

3.1 Investment Objective

The Investment Objective of the Fund is to endeavour to maximise the total level of return to investors, minimising the volatility of the portfolio whilst having regard to attaining a desirable level of liquidity through investment, principally, in Maltese debt securities and in Maltese equity securities.

At any time, the Investment Objective of the Fund will only be changed with the approval of Shareholders of the Fund.

There is no guarantee that the investment objective of the Fund will be achieved and investment results may vary substantially over time.

3.2 Investment Policies

With due regard to the permissible investment instruments listed under Section 3 of the Prospectus, entitled '*Permissible Investment Instruments*', as well as to the investment limits listed under Section 4 of the Prospectus, entitled '*General Investment Restrictions*', the Manager will seek to attain the Fund's Investment Objective by investing in a selection of listed and/or unlisted Maltese debt securities and, to a limited extent, Maltese equity securities. In this regard, the Fund will have an exposure to a spread of Maltese securities with a focus on listed debt securities having different maturities, coupons and credit risks. In seeking to attain the Fund's investment objective, the Manager may also invest, at any time, but to a limited extent in:

- Not more than 15% of its Net Asset Value in listed debt and/or equity securities issued outside Malta by non-Maltese entities; and
- Not more than 10% of its Net Asset Value in other Collective Investment Schemes. It should be noted that none of the other collective investment schemes will be managed by the same management company of the Fund nor by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding.

Apart from the investment limits listed under Section 4 entitled '*General Investment Restrictions*' of the Prospectus, there is no restriction on the allocation of the Fund's assets as:

- Between issuers in any one market; and
- Between euro and non euro denominated assets.

The Fund may transact in Financial Derivative Instruments for the purposes of efficient portfolio. A detailed explanation of the Financial Derivative Instruments that the Fund may transact in as well as the risks associated with such instruments can be found in Section 6 in the Prospectus under the heading '*Financial Derivative Instruments and their Risks*'.

The Fund may invest in Transferable Securities which are listed on a stock exchange. For a list of those stock exchanges which the Manager may invest in, please see Appendix I of this Offering Supplement.

The Manager will keep under review and, may, from time to time amend the asset allocation as it may consider necessary with a view to achieving the Fund's Investment Objective.

The Directors may, at their sole discretion, alter the Investment Policies set out above, provided that any material change thereof shall be notified to Shareholders of the Fund.

3.3 Permissible Investment Instruments & Investment Restrictions

For more detailed information on the permissible investment instruments to be made by the Fund, please refer to Section 3 entitled '*Permissible Investment Instruments*' of the Prospectus.

The Fund is also subject to certain investment restrictions laid out in section 4 entitled '*General Investment Restrictions*' of the Prospectus.

With respect to section 4.2.3(ii) of the Prospectus, it is currently intended that the Funds will, at any time, invest more than 35% of their net assets in Transferable Securities or Money Market Instruments issued or guaranteed by the Government of Malta.

4 RISK FACTORS

INVESTMENT IN THE FUND IS SUBJECT TO RISK FACTORS. THE SPECIFIC RISK FACTORS HIGHLIGHTED BELOW SHOULD BE READ IN CONJUNCTION WITH THE RISK FACTORS SET OUT IN THE PROSPECTUS UNDER THE HEADINGS 'RISK FACTORS' AND 'FINANCIAL DERIVATIVE INSTRUMENTS AND THEIR RISKS' UNDER SECTIONS 5 AND 6, RESPECTIVELY.

Investments on the Malta Stock Exchange

The Fund invests in debt and equity securities quoted on the Malta Stock Exchange and accordingly the investments that can be made thereon are limited. This may lead to an exposure to a particular security or industry sector which is higher than that normally associated with a diversified portfolio. This may expose the Fund to higher levels of volatility and may adversely affect the performance of the Fund.

Some Maltese companies listed on the Malta Stock Exchange impose, through their constitutional documents, a ceiling on the equity holding that any one particular investor may, directly or indirectly hold in such companies. In this respect investors should be aware that the Manager might be restricted in implementing the Fund's investment policies by virtue of such impositions.

Despite the fact that such securities are listed, the market in such securities may be illiquid. The trading volumes on emerging stock exchanges such as the Malta Stock Exchange are substantially less than the world's leading stock markets. Accordingly the buying and selling of securities may be time consuming and may need to be effected at unfavourable prices. Although it is not envisaged that this should create any difficulty in valuing the Fund's investments, reduced secondary market liquidity may have an adverse effect on the market price of such securities and the Company's ability to dispose of particular securities to meet its liquidity requirements.

Exposure to sectors or markets

The Fund principally invests its assets in the Maltese market and thus the degree of market diversification is limited to such market. Thus, the performance of this Fund is closely linked to the performance of the Maltese market.

Investments in the securities of smaller companies

The Fund may invest in the securities of smaller companies. Investments in the securities of smaller companies can involve greater risk than is customarily associated with investments in larger, more established companies. In particular, smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on one or two key individuals. This may result in investments in such companies to be more volatile than that in larger companies.

Investments in the securities of unquoted companies

The Fund may invest in securities of unquoted companies. Investment in unquoted companies can be subject to risks not normally associated with quoted securities. These risks mainly relate to the illiquidity of the market.

Investments in Malta Government Bonds

The Fund invests in debt securities issued or guaranteed by the Government of Malta. Accordingly the credit risk underlying these securities is of a sovereign nature relating to the Republic of Malta. The current credit rating of the Republic of Malta can be obtained from the Central Bank of Malta. The Central Bank of

Malta has customarily always maintained a market in these securities and thus, this enhances the liquidity of the market in these securities. However, there is no guarantee that such market making function is continued.

Equity Investments

Investment in equities is subject to certain risks inherent in the market, which are attributable to general market conditions. Furthermore, equity investment is also subject to firm specific risk which reflects the risk peculiar to an individual firm.

Investors should therefore be aware that the Fund is subject to both market and firm specific risk.

Investments in debt securities and Money Market Instruments

The Fund will principally invest in debt securities/Money Market Instruments which expose the Fund to the risk that an issuer may default on the payment of interest, principal or both. Credit risk, a fundamental risk relating to all debt securities as well as Money Market Instruments, is the chance that an issuer will fail to make principal and interest payments when due. Even in the absence of the issuer's default, if the mark-to-market value is lower than the cost of the investment, the Fund may suffer immediate diminution in the net asset value, even if the Fund holds that investment to maturity and yields a profit.

THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE ENUMERATION OR EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE FUND. PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE OFFERING DOCUMENT AND OFFERING SUPPLEMENT AND CONSULT THEIR OWN COUNSEL AND ADVISORS BEFORE DECIDING TO INVEST IN THE FUND

5 BUYING, SELLING AND SWITCHING

5.1 Dealing Prices

The dealing price per share for buying Investor Shares (the issue price per Investor Share) will be equivalent to the Net Asset Value per share for each class of shares in the Fund.

An initial charge, as set out in Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*', is applicable for buying Investor Shares. This charge will be automatically deducted from the amount invested.

The dealing price per Investor Share for selling Investor Shares (the redemption price per Investor Share) will be equal to the Net Asset Value per Investor Share for each class of Investor Shares in the Fund. In the event that exit fees apply, Shareholders shall be required to pay the applicable fee. As at the date of this Offering Supplement, no such exit fee is due.

The dealing prices applicable for switching Investor Shares between funds of the Company are the applicable issue price per Investor Shares and redemption price per Investor Share of the applicable funds to be switched.

Given that the Fund is listed on the Malta Stock Exchange, the Net Asset Value per Investor Share for each class of shares in the Fund will be notified to the Malta Stock Exchange on a daily basis and will be published daily or at such other frequency as the Directors may determine from time to time in a newspaper. The Net Asset Value per Investor Share for each class of shares in the Fund will also appear on the Manager's website on www.bovassetmanagement.com

5.2 Subscription and Application Procedure

Applications for Investor Shares from new investors must be made on the Subscription Application and applications from existing Shareholders may be made either on a Subscription Application or in writing (including facsimile communication or by any other electronic means acceptable to the Manager and the Administrator subject that such requests are followed by the original signed instructions) through licensed financial intermediaries listed under Appendix IV of the Prospectus or directly to the Manager at the office of the Administrator. The application to purchase Investor Shares in writing if accepted by the Manager and the Administrator, will constitute a legally binding contract. The Manager and the Administrator reserve the right to reject any application in whole or in part.

A copy of the Subscription Application should be retained by the applicant for own personal reference and records.

Subscription Applications duly completed shall be dealt with in accordance with the procedure set out under Section 7 of the Prospectus entitled '*Buying, Selling and Switching*'. Settlement should be made in accordance with the Prospectus and the instructions in the Subscription Application.

Applications for the purchase of shares received by the Administrator before 16:00 hours (Malta time) on a Dealing Day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours (Malta time) on the following Dealing Day. Applications received by the Administrator after 16:00 hours (Malta time) on a Dealing Day as well as applications received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be carried over to the next following Dealing Day and dealt at the prices calculated as at 09:00 hours (Malta time) of the relevant Dealing Day.

5.3 Redemption Procedure

Shareholders may, at any time, irrevocably request, via signed instructions to the Administrator, the redemption of their Investor Shares in the Fund.

Redemption instructions may be made on a Redemption Form or in writing in a form acceptable to the Manager and the Administrator (which shall no longer include facsimile instructions) through licensed financial intermediaries or directly to the Manager.

Partial sales of Shareholdings are acceptable provided the resultant value of the Shareholding does not fall below the relevant minimum amount established for each Fund as specified in Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*'). The Administrator may, at its complete discretion, redeem a shareholding with a value of less than such minimum holding. This right will normally be waived in the case of active monthly investment plans.

Shareholders may not revoke or withdraw redemption instructions delivered to the Manager and the Administrator, even if the Directors elect to exercise their power of deferral.

Depending on the amount/s redeemed, this may result in an overall erosion of the capital invested.

Redemption instructions received at the Administrator up to 16:00 hours (Malta time) on a Dealing day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours (Malta time) on the following Dealing Day. Redemption instructions received by the Administrator after 16:00 hours (Malta time) on a Dealing Day as well as redemption instructions received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be carried over to the next following Dealing Day and dealt at the prices calculated as at 09:00 hours (Malta time) on the relevant Dealing Day.

Settlement of redemption proceeds will be made in accordance with the procedures set out in Section 7.3 of the Prospectus under the sub-heading "*Payment of Redemption Proceeds*".

5.4 Redemption in Specie

The Company may, in circumstances where an investor has given instructions to redeem such number of shares in the Fund as would on the relevant Dealing Day be equivalent to 5% or more of the Net Asset Value of the Fund, with the approval of the Custodian and the investor, satisfy any such redemption instructions by the transfer to that investor of assets of the Fund *in specie*.

In these circumstances the Company shall transfer to such investor that proportion of the assets of the Company which is then equivalent in value to the shareholding of the investor then requesting the redemption of shares, but adjusted as the Directors may determine to reflect the liabilities of the Company.

The nature of the assets and the type of the assets to be transferred to an investor in the afore-mentioned circumstances shall be determined by the Company on such basis as the Company, with the consent of the Custodian shall deem equitable and not prejudicial to the interests of both the remaining and outgoing investors. For the foregoing purpose the value of assets shall be determined on the same basis as used in calculating the Net Asset Value.

5.5 Liquidity Management

To ensure compatibility with the investment strategy of the Fund, the Manager employs a redemption policy, liquidity management tools and other conditions to redemptions, consisting of:

- (i) an extension of the redemption notice period, as set out below; and
- (ii) the redemption gate, as set out in the Prospectus and below.

Extension of Redemption Notice Period

The Fund requires Shareholders to provide not less than 1 Business Day prior written notice of a proposed redemption request (the "**Redemption Notice Period**"). The Board of Directors may, on the advice of the Investment Manager, extend the Redemption Notice Period for one or more Redemption Days, where doing so is considered necessary to ensure the orderly functioning of the Fund and the fair treatment of Shareholders.

Any extension of the Redemption Notice Period shall cover the period between receipt of the redemption request by (or on behalf of) the Fund and its execution, and shall not include the time required for settlement of the redemption proceeds.

This Extension of Notice Period may be activated in normal and in stressed/exceptional market conditions and shall not alter the Fund's redemption frequency. Redemptions will continue to occur on the scheduled Redemption Days. Only the amount of prior notice required may be adjusted.

The Extension of Notice Period may extend the Redemption Notice Period by up to 10 Business Days, or, where the Board, on the advice of the Investment Manager considers a different calibration is necessary and proportionate in the circumstances, to such other period (or fixed date preceding the relevant Redemption Day) as the Board, on the advice of the Investment Manager may reasonably determine.

The Board shall give notice (as soon as reasonably practicable) of the activation of an Extension of Notice Period to all investors, specifying the specific number of days or a fixed date preceding the Redemption Day.

Redemption Gate

For the purposes of this section, a "Redemption Gate" means a temporary and partial restriction of the right of Shareholders to redeem their Shares, whereby redemption requests are executed only up to a specified proportion, and the remaining portion is deferred in accordance with this Offering Supplement.

The Directors may, on the advice of the Investment Manager, if justified having regard to the interests of the Fund and its Shareholders and in accordance with applicable law, determine to activate a Redemption Gate.

The Investment Manager may consider activating a Redemption Gate where the total net redemption requests received for a given Redemption Day exceed ten per cent (10%) of the Net Asset Value of the Fund calculated on the relevant Valuation Day (the "**Activation Threshold**").

For the purposes of this section:

1. "net redemption requests" means the aggregate value of redemption requests received for the relevant Redemption Day less the aggregate value of subscription requests received for the same date, where applicable;

2. the relevant percentage shall be calculated by reference to the most recently available official Net Asset Value prior to the relevant Redemption Day.

Exceeding the Activation Threshold shall not automatically result in the activation of a Redemption Gate. The Investment Manager shall determine, having regard to the liquidity profile of the Fund's assets, prevailing market conditions, expected cash flow and the best interests of the Shareholders, whether the activation of a Redemption Gate is necessary and proportionate as an LMT.

Upon activation of a Redemption Gate:

1. redemption requests shall be executed on a pro rata basis for all Shareholders submitting valid redemption requests for the relevant Redemption Day;
2. the aggregate value of redemption requests executed on that Redemption Day shall not exceed the redemption gate limit determined by the Directors, on the advice of the Investment Manager, for that Redemption Day (the "**Redemption Gate Limit**"), having regard to the liquidity profile of the Fund's assets, prevailing market conditions, available liquidity and expected cash flows, and the need to ensure the fair treatment of Shareholders;
3. all redemption requests shall be reduced proportionally so that each redeeming Shareholder has the same percentage of its redemption request executed.

The portion of any redemption request not executed as a result of the activation of the Redemption Gate (the "**Deferred Portion**") shall automatically be carried forward to the next Redemption Day and shall be treated as a redemption request received in respect of the next Redemption Day.

The Deferred Portion shall be processed in priority to redemption requests received for that subsequent Redemption Day but shall remain subject to the possible application of a Redemption Gate on the subsequent Redemption Day if the Activation Threshold is again exceeded.

No new redemption notice shall be required in respect of the Deferred Portion.

The Redemption Gate shall be temporary in nature and shall be assessed and reviewed periodically by the Investment Manager to ensure that it remains necessary and proportionate in the best interests of Shareholders.

The Redemption Gate shall cease to apply where the Investment Manager determines that the circumstances justifying its activation no longer exist and that the Fund is able to meet redemption requests in an orderly manner without prejudicing the interests of remaining Shareholders.

The Redemption Gate shall be applied uniformly to all affected Shareholders and Share Classes for the relevant Redemption Day.

Regulatory notification / reporting

Where applicable, the activation and/or deactivation of a Fund Specific LMT may give rise to regulatory notification or reporting requirements and the Company and/or the Investment Manager will comply with any such requirements as may apply from time to time.

Other LMTs

The Fund may also make use of other LMTs as set out in the Prospectus under the heading "Liquidity Management Tools".

5.6 Switching of Investor Shares

Shareholders may switch Investor Shares in one Fund ("**the Original Shares**") into Investor Shares in another Fund (the "**the New Shares**") and are entitled to do so on any Dealing Day provided that the resultant value of the Shareholding for each Fund is not below the minimum established amounts as specified Section of 1 of this Offering Supplement under the heading '*Key Features of the Fund*').

Shareholders may also switch Investor Shares from one Investor Share class ("**the Original Shares**") to another Investor Share class ("**the New Shares**") within the Fund (subject to the minimum holding and redemption requirements).

Any switching request should specify the number of Investor Shares to be switched.

On a switch between the Original Shares and the New Shares, where the initial fee applied on the New Shares is higher than that applied on the Original Shares, the Administrator will usually charge the New Shares the difference in initial fees between the Original Shares and the New Shares. Notwithstanding, the Manager retains the right to apply up to the maximum initial fee on the New Shares.

Switching of the Original Shares comprised in a valid switch request shall be effected by the redemption of such Original Shares (save that the redemption monies shall not be released to the Shareholder) and the issue of New Shares, with such redemption and issue taking place on the same Dealing Day/s at the dealing prices as described above.

Irrevocable switching instructions received at the Administrator in respect of the Funds before 16:00 hours on any Dealing Day, if accepted by the Administrator, will be dealt at the prices calculated as at 09:00 hours on the following Dealing Day. Irrevocable switching instructions received by the Administrator after 16:00 hours on any Dealing Day as well as irrevocable switching instructions received on a Business Day which is not a Dealing Day, if accepted by the Administrator, will be carried over to the next following Dealing Day and dealt at the prices calculated as at 09:00 hours on the relevant Dealing Day.

6 DIVIDEND DISTRIBUTIONS

This section applies to the Distribution class of Investor Shares of the Fund.

6.1 Dividend Policy

The Directors shall calculate, at each ex div date, the net income available for distribution, adjusted to reflect the re-allocation, if any, of part of the expenses against capital.

In the absence of unforeseen circumstances, subject to the availability of distributable profits and in the absence of exceptional market conditions, the Directors expect to distribute to shareholders on an annual basis and after the deduction of expenses, part or all of the net income available for distribution by the Fund. Any undistributed income will be reflected in the Net Asset Value per share of the Fund.

Full or part of the management fee is re-allocated from the income account to the capital account, depending on the investment objective of the relative sub-fund. This re-allocation may increase the income available for distribution to Shareholders in such sub-funds but may constrain or erode capital growth.

6.2 Dividend payment dates

Subject to Section 6.1 above, the Directors expect to pay the annual dividends by not later than the expiry of two months from the end of the financial year ending 30 April in each year. Interim dividends will be paid within two months of 31 October in each year.

The first dividend payment in respect of the Fund was paid in August 2009.

6.3 Direct credits and ex div dates

Dividend payments shall be effected by the Administrator by means of a direct credit into a bank account held in the name of the registered holder as duly instructed by the said holder in the payment instructions. In the case of a share held jointly by two or more persons, the Directors shall cause the dividend payment to be made into a bank account held in the name of any one or more of the joint holders, as duly instructed by the said holder/s, and dispatch of the dividend to the account of such holder/s shall be deemed as sufficient delivery to all and shall discharge the Company of its obligation towards the other joint holder/s. The Company shall not be responsible for any delay in transmission.

Any changes to the bank account details are to be notified to the Administrator by not later than the ex div dates mentioned below. If such changes are not notified to the Administrator by these dates or if it transpires to the Administrator that the bank account is not held in the name of the registered holder/s, the Administrator will reinvest such proceeds. Reinvestment will be made in accordance with the provisions specified in Section 6.5 below.

Only Shareholders listed on the Register of Shareholders on the 30 April and 31 October (ex div dates) in each year shall be entitled to receive dividend payments.

All payments are subject in all cases to any pledge (duly constituted) of the Investor Shares and to any applicable fiscal or other laws and regulations. In particular, but without limitation, all payments by the Company in respect of the Investor Shares shall be made net of any amount which the Company is compelled by law to deduct or withhold for or on account of any present or future taxes, duties, assessments or other government charges of whatsoever nature

imposed or levied by or on behalf of the Government of Malta or authority thereof or therein having power to tax.

6.4 Dividend Warrants

A dividend warrant will be issued and will show all the payments effected during the year together with any final dividend which may be paid. The dividend warrant will bear a date falling after the end of the respective financial year to which the warrant relates.

6.5 Reinvestment option

Investors may elect to reinvest the dividend payments back into the Fund subject that written notification of reinvestment instructions is, (unless prior advised), received by the Administrator by not later than the ex div dates mentioned in Section 6.3 above.

6.6 Dealing Days - Reinvestment Option

Reinvestment will normally be effected by not later than the second Dealing Day following the dividend payment date at the price prevailing on the respective Dealing Day.

6.7 Allocation of Income

In terms of the Memorandum and Articles of Association of the Company the amount available for allocation in respect of the Fund shall be a sum equal to the aggregate of the income received or receivable by the Company in respect of the Fund (whether in the form of dividends, interest or otherwise) during the Accounting Period, calculated in accordance with the following: -

- i. addition or deduction of a sum by way of adjustment to allow for the effect of sales or purchases of Investments, cum or ex-dividend;
- ii. addition of a sum representing any interest or dividend or other income accrued but not received by the Company at the end of the Accounting Period and deduction of a sum representing (to the extent that an adjustment by way of addition has been made in respect of any previous Accounting Period) interest or dividends or other income accrued at the end of the previous Accounting Period;
- iii. addition of the amount (if any) available for allocation in respect of the last preceding Accounting Period but not allocated in respect thereof;
- iv. addition of a sum representing the estimated or actual repayment of tax resulting from any claims in respect of income tax relief or double taxation relief or other relief available or otherwise;
- v. deduction of the amount of any tax or other estimated or actual liability properly payable out of the income of the Company;
- vi. deduction of sums representing participation in income paid upon the repurchase of shares during the Accounting Period;
- vii. deduction of such sum as the Directors may think appropriate in respect of any of the expenses provided in the Articles PROVIDED ALWAYS that the Company shall not be responsible for any error in any estimates of income tax repayments or double taxation or other relief expected by way of taxation or of income receivable, and if the same shall not prove in all respects correct, the Directors shall ensure that any consequent deficiency or surplus shall be adjusted in the Accounting Period in which a further or final statement is made of such estimated income receivable is determined, and no adjustment shall be made to any dividend previously declared; and
- viii. deduction of any amounts declared as a distribution but not yet distributed.

6.8 Equalisation

The Company shall operate an equalisation account to ensure that the amount distributed in respect of each Investor Share will be the same for all Investor Shares notwithstanding different dates of issue of those Investor Shares. Accordingly, a sum equal to that part of the issue/redemption price of an Investor Share, which reflects income (if any) accrued up to the date of issue/redemption, will be deemed to be an equalisation payment/charge and credited (in the case of Investor Share Issues)/debited (in the case of redemptions) by the Directors to the equalisation account. Part of the first dividend to holders of Investor Shares in respect of which equalisation payments are made, will be paid out of the equalisation account.

In theory, the excess of equalisation credits over debits should be distributed, however, in the absence of significant fluctuations between redemption and issue or creations of Investor Shares, it is not expected to consider equalisation when determining distributions to Shareholders nor to pay to Shareholders any excess of equalisation credits over debits. Any fluctuations between redemptions and creations of Investor Shares that could have an effect of [1] per cent or more on the Net Asset Value per Investor Share shall be considered significant.

No equalisation in respect of the Fund's accumulated unrealised gains or losses will be effected.
